

All PAC strapping dispensers are quality manufactured in North America utilizing the highest quality material and workmanship. High yield structural tubing, heavy load bearing wheels and solidly constructed brake assemblies result in dispensers that will give you years of dependable performance.

#316S Deluxe Steel Dispenser

The 316S is a heavy duty steel dispenser designed for use with all oscillated wound steel coils. In addition to a convenient tray for tools and seals, and 8" wheels, the 316S features the exclusive strap roller payoff system to prevent kinks and strap spill-over.

#316P Deluxe Plastic Dispenser

This dispenser is identical to the 316S, except it is designed for 16x3 and 16x6 coils of plastic strapping.

#863 Our Standard Dispenser

Our best selling model, the 863 can be used for both steel and nonmetallic strapping. Features include an automatic brake, heavy duty 6" wheels, and a tool tray. This cart is extremely versatile and accepts 3", 6", and 8" face coils as well as 16" and 8" cores.

#965 Heavy Duty Dispenser

This unit has a continuous handle heavy duty tubular frame. It comes complete with a large tool tray, automatic brake, and 10" semi-pneumatic wheels. It accepts 16" core coils in face sizes up to 6" and is compatible with steel and nonmetallic strapping.
