

The PAC family of strapping kits offers wholesalers of both plastic and steel strapping an excellent opportunity to increase sales and profits by efficiently servicing those markets that need a complete strapping set up. With the PAC family of kits, there is no need to inventory separate components, do any packaging, or send a sales rep out to do a demo. PAC kits are available in both steel and plastic, and come in several sizes and varieties for a wide range of applications. In 1996, in response to postal reclassification, we introduced our line of postal kits to cover a broad range of tray strapping applications. All PAC kits contain complete, graphic instructions.

We are also happy to build specialized kits for unique applications.

Plastic Strapping Kits

Strap PAC

This basic kit is still our best selling plastic strapping kit. Available in four different styles, this convenient kit contains everything needed for a complete, self contained, light duty strapping system. Designed for low volume and multi-station users, the Strap PAC is portable and economical.

Econo PAC

Available in both regular and heavy duty, this complete, self contained kit contains everything necessary to handle a wide range of applications. Packaged in a double wall self dispensing carton, Econo PAC's are ideal for first time users and multi location buyers.

All PAC- Polypropylene CSS1200

This is the ultimate strapping kit designed for the customer who wants a premium strapping system. The All PAC complete strapping system is equipped with everything needed including a heavy duty, durable dispenser cart.

All PAC- Polyester PSK48

The PSK48 is a complete strapping kit for those applications requiring the special characteristics of polyester strap. Everything is included in one carton containing strap, tools, seals, and a dispenser, all matched to give you a complete polyester strapping system.

PSK58

Similar to the PSK48, this version includes extra heavy duty 5/8" polyester for the most demanding applications. All accessories and tools are sized accordingly.

Postal Kit

Postal Kit Plus

This inexpensive kit comes complete with post office recommended white strapping, plastic buckles, and a simple tensioning and cutting tool. It is packaged in a self dispensing carton, has complete instructions, and contains enough material to strap 500 trays.

Steel Strapping Kits

Steel PAC

Steel PAC strapping kits are complete self contained steel strapping systems. Available in three sizes, these kits are perfect for the occasional to moderate user of steel strapping. All Steel PAC's are completely portable making them ideal for use at remote job sights.

Replacement Stock- Steel and Plastic

Strapping and seal replacement kits are available for all Econo PAC's, All PAC's, and Steel PAC's.
