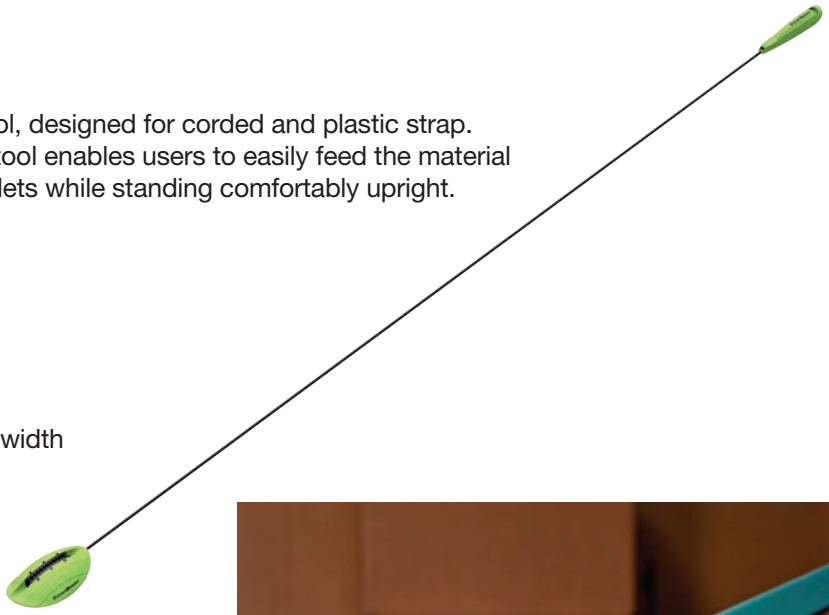
StrapBandit

The StrapBandit is a revolutionary pallet threading tool, designed for corded and plastic strap. The durable, efficient design of the Bandit strapping tool enables users to easily feed the material under and through most wood pallets and plastic pallets while standing comfortably upright.

- Professional pallet threading tool
- Faster and easier than any other threading tool
- Thread pallets while standing up
- Works on all pallets
- Handles all plastic and corded strapping
- Securely holds strap from thin to thick and any width



StrapThreader

The StrapThreader is similar to the StrapBandit except it is used for low-height pallet voids – with a head that is only 2 ½" wide x ¾" high.
